Percentage: 95.6%   *2019 - 2020*

WORK EXPERIENCE

Microsoft Learn Student Chapter   **December 2023 – Present**
Tech Lead   *Amity University*
- Led and coordinated a team of 25-30 students in developing club websites, ensuring seamless functionality and user experience.
- Organized and executed various club events, fostering a sense of community and engagement among members.
- Implemented effective project management strategies to meet deadlines and deliver high-quality results within budget constraints.
- Mentored team members, fostering their technical skills and professional development while promoting a collaborative and inclusive work environment

Hackathon   **April 2023**
Team Lead   *KIET*
- Served as the team lead for a group of 3 members in the KIET college hackathon, demonstrating strong leadership and communication skills throughout the event.
- Spearheaded the development of a healthcare app aimed at addressing specific challenges in the healthcare sector, showcasing innovation and problem-solving abilities.
- Successfully guided the team through the intense competition, ensuring effective collaboration and division of tasks to maximize productivity and creativity.
- Secured qualification for the final round of the hackathon, highlighting the team's technical proficiency and ability to deliver a viable solution under pressure.

PROJECTS

Portfolio Website | HTML, CSS, JavaScript
- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, featuring dynamic elements and interactive features for enhanced user experience.
- Demonstrated proficiency in web development and attention to detail in design, showcasing skills, projects, and achievements to potential employers or clients.

HealthCare Web App | HTML, CSS, JavaScript
- Engineered a comprehensive healthcare app facilitating seamless interaction between doctors and patients, offering features such as locating nearby doctors, scheduling appointments, accessing lab tests, and enabling online consultations.
- Integrated user-friendly interfaces and secure data transmission protocols, ensuring efficient and reliable access to healthcare services while prioritizing patient confidentiality and convenience.

ACHIEVEMENTS
- Finalist in a **hackathon at KIET**
- Remarkable track-record at LeetCode defeating more than 85% of the users.
- Recipient for **Academic Scholarship** by Amity University twice.

TECHNICAL SKILLS

Software Development: JAVA | C | C++ | JavaScript | MySQL
DevOps: GoLang | Docker | Kubernetes | Terraform
Tools & Miscellaneous: GIT | Postman | Bootstrap | Figma | Data Structures | Algorithms | Operating System | Networking

LEADERSHIP / EXTRACURRICULAR
- Currently leading **MLSC** as **Technical Team Head**, having 50+ members and organized technical events by collaborating with industry heads.
- Lead the team at a hackathon making it to the final round.
